

Weekly Feedback Report	 CONTACT ADDRESS: Itu@mediasupport.org Issued: 23 Oct 2026 
 Brief Summary	
Rainfall was the predominant theme across the feedback from listeners around the country this week (15-21 October 2026) shared on Radio Ergo's independent toll-free audience call-in platform. Beneficial rain was experienced by most callers, citing improved conditions for livestock and farms, replenished water sources, and cooler temperatures. Some noted that the rainfall had been unevenly spread or inconsistent across different locations. However, heavy rainfall that caused flooding, destruction of property, and displacement was noted by callers in two parts of Galgadud, and others in Middle Shabelle, Bay, and Gedo regions of the south. Some of those affected wanted assistance, including some IDPs. Drought continued for two callers in Togdher region and a few in southern parts. The following summarises the calls by theme. Floods – in Galgadud region, a caller in Dabare (west of El-bur]) said heavy rainfall on the night of 17 October had caused flooding that affected some homes. A female caller in Abudwak said heavy rainfall had flooded some houses and latrines. She urged people to stay away from flood prone areas, as the flood warning and preparedness information has been emphasising. In Middle Shabelle, a caller in Adale said heavy rainfall had led to floods and displacement of people. He added an appeal for assistance. In Jowhar, a caller said floods had destroyed property in the city. A female caller identifying as an IDP said heavy rainfall had left them stranded and needing urgent help, with even the markets flooded. Another said heavy rainfall and flooding had inundated some neighbourhoods and houses, displacing families. In Baidoa, one caller said they were suffering from floods after heavy rain and also faced the ongoing effects of conflict. Another said he was among IDPs in need of plastic shelters and food aid. Two callers in Bardera, Gedo, also said there was flooding after heavy rainfall. One said they needed help, the other said they feared further flooding that could wreak havoc. Rainfall – in the north, a female caller in Buhodle, Togdher, said the rainfall had brought pasture for their livestock and they were doing well. A caller in Sabawanag, Hargeisa, said rain had brought an influx of people migrating into the area. In Sanag region, people noted rainfall in Qowrale and Erigabo. Callers in Hingalol and Lasanod said the rain was heavy. One caller in Bosasso noted cooler temperatures after some rain. In central Somalia, callers in Amaro and Dagari, in Mudug region said they were thankful for the rain after a long period of drought, although a caller in Jarriban noted that some areas were still dry. In Galgadud, a number of callers cited rainfall, some heavy, in Abudwak. A caller in Bahdo said their livestock had recovered. Among several from Guriel, a female caller said the rain had brought fodder for the livestock and that they hadn't faced floods or other threats. Among callers in Hirshabelle, people confirmed good rainfall in Beletweyne, Gonyale, Jowhar and Balad. One caller in Balad said the rain there was heavy and that the river water level was rising. A farmer in Hiran said they were now cultivating their fields so they could start planting their seeds. In South West state, several called from Baidoa, one citing the heaviest rainfall in a long time, others saying they had abundant water for their farms. A caller in Tiye glow, Bakool, said they were harvesting produce. In Gedo, callers in Bardera, Beledhawo and Dollow mentioned good rainfall helping farms and livestock.	

Drought – two callers in Tala-bur, Togdher region, said they hadn't had much rain so they still faced drought that was affecting their livestock due to lack of fodder and water, and with diseases like CCPP. In the south, a caller in Garasweyne, Bakool, said the rain has been barely enough for their farm needs. A caller in Busley village, Lower Shabelle, said they faced severe drought as they hadn't had rainfall this year and were appealing for help. A caller in Boholgaras, Gedo, said their area was still dry whilst surrounding areas had rain.

Mental health – Radio Ergo's weekly programme on mental health, 'maankaab', resonated with several listeners who asked questions to the experts about stress, overthinking, and mental illness.

Date	Location	Gender	Theme	Remarks
18/10/2026	Dabare Galgadud	male	Floods	Hello Radio Ergo, my name is N.K in Dabare area [west of El-bur]. We have got heavy rainfall last night that has led to floods affecting our homes.
